

TREAT MENTAL HEALTH PSYCHEDELIC-ASSISTED THERAPY

Current trends are bad.
Mental health is broken
and in crisis.

Science says there is hope.
Psychedelic-assisted therapy
results are jaw-dropping.

But there is no funding.
Because of the legality,
research is limited.

TREAT is the initiative
To provide resources for
research and access.

It's well written and smart.
Not recreational, no taxes,
oversight, all the right stuff.

Saves lives, saves money.
Healing the root cause of
illnesses will save billions.
